General notices for use

- This product is a highly advanced electronics device. Disassembly, customization or repairs without the appropriate knowledge and precautions can lead to dangerous situations with chance of damaging the product and causing serious personal injuries.
- Avoid use in extreme conditions such as high or low temperatures, high humidity or moist environments and around magnetic fields. Also avoid long-time exposure to sunlight.
- Be sure to place this device on stable, flat and level surfaces only
- Only use the manufacturer permitted accessories to avoid damages to the product and possibly warranty loss.
- Please follow the relevant local environmental regulations to deal with obsolete machines and accessories.
- If cleaning is required, use only a dry, soft cloth or a minimally damp cloth without any corrosive solvent or cleaning agent.

Disclaimer

- All information and images used in this user manual are provided ‘as is’ and are subject to change without notice.
- The manufacturer accepts no liability for the information offered in this document.

Power Source

Turning the speakers on / off

Long Press Power button to turn the system on / off.

Charging your speakers

Firmly connect the supplied adapter to USB jack on the side of the speakers via the USB cable, and plug the adapter into a wall outlet.

Charging begins automatically, whether the system is turned on or off. The charging status is displayed on the device.

(**Notice**: The indicator light will show RED. Once the device is fully charged, the light will go out.)

Pairing your speakers with another device

- Long press Power button to turn on your speakers. The power indicator lights up green.
- Press Play / Pause button for 3 seconds. You will hear a voice prompt that it is ready to pair.
    a. When the indicator light shows a fast alternating blue and red, the system enters pairing mode.
    b. **Note**: Pairing mode is cancelled after 3 minutes, along with a "Beep" sound. If you want to enter into pairing mode again, please start step 2 over again.
- Perform the pairing procedure on the Bluetooth device to detect the speakers
    a. A list of detected devices appears on the display of the Bluetooth stereo audio source device.
    b. The speakers are displayed as "LINQ-200". If the speakers are not displayed, repeat step 2.
    c. **Note**: When pairing, be sure to keep both devices within 1 meter range of each other.
- Select "LINQ-200" shown in the display of the Bluetooth device.
- If Passcode input is required on the display of the Bluetooth device, input 0000
    a. **Note**: Passcode may be called "Passkey", "PIN code", "PIN Number" or "Password"
- Start the Bluetooth connection from the Bluetooth device.
    a. **Note**: The system memorizes the device as the last connected device. Some Bluetooth devices may connect with the speakers automatically when pairing is complete.

NFC Function

Turn on NFC on your Bluetooth device (If your device has NFC functionality), place your device to the NFC area (on the top of the speakers next to the MIC port or power indicator) of the speakers, the two devices will be connected by Bluetooth to each other. Repeat this for disconnecting.

Listening to the speakers

Long press the **Power** button to turn on / off the speakers. After turning on the speakers short press the **M** button. This will switch between AUX and Bluetooth modes.

While playing music on AUX or Bluetooth mode you can plug in headphones into the earphone jack.

Bluetooth Mode

- On the status of the Bluetooth connection you may only switch to **AUX** mode by pressing the **M** button once your Bluetooth device is paused. At this time, Bluetooth is still connected and has priority. When you replay the music via Bluetooth, the audio from **AUX** mode automatically stops. When the Bluetooth device is paused, **AUX** mode automatically opens after 3 seconds.
- Short press **PREV** / **NEXT** for previous & next song
- Short press **V+** / **V-** to increase or decrease the volume
    a. **Note**: Volume can be adjusted separately on all the modes including Bluetooth, AUX and phone calls
- During playing music on Bluetooth mode, if there is an incoming call, the Bluetooth music automatically stops to enter into Call mode. Short press the **Phone** button to answer, long press to reject / end the call. When talking, short press **Phone** button to switch over if another call is coming; long press to end the call.
    a. While in Bluetooth mode, press and hold the **Phone** button for 3 seconds to enter into iPhone Siri or Android Voice Dial; Press twice to redial the latest call.

AUX Mode

- Press **M** button to select AUX mode.
    - Short press **V+** / **V-** for volume up and down.

Two or more speakers

- Two or more speakers can work at the same time via a 3.5mm audio cable (i.e. Box-A and Box-B).
- When playing the music via Box-A keep one end of a 3.5mm audio cable plug into the earphone jack of Box-A, and the other end into Box-B's AUX jack. (Ensure Box-B is on AUX mode).

- **Note**: The loudspeakers of Box-A will automatically shut off when earphone jack is plugged in. Long press **M** button of Box-A for 5 seconds to open the loudspeakers again, then the earphone output functionality is activated.
- This process can be continued with as many speakers in sequence using the same process above. (Box-A → Box-B → Box-C → Box-N....)
